DETAILED ACTION

Election/Restriction

The examiner notes for completeness of the record that newly added claims 59 and 60 are encompassed by Group I, the group previously elected for prosecution.

Claim Objections Withdrawn

The objection to claims 14 and 18, outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment corrects the claim text as appropriate.

Claim Objections, NEW

Claim 1 is objected to because of the following informalities: the claim contains an extraneous period mid text (at the end of the paragraph added by applicant's amendment). Claims must begin with a capital letter and end with a period. MPEP 608.01(m). Appropriate correction is required.

102 Rejections Withdrawn

The rejection of claims 1-22, 46 and 47, in so far as they read on the species defined in the previous Office Action, under 35 USC 102(b), has been overcome by applicant's amendment. The amendment narrows independent claim 1 such that the rejection is no longer tenable.

Allowable Subject Matter

The elected species remains free of the prior art. Applicant having overcome by previous rejection, the search was therefore expanded as called for under current Office Markush practice – a compound-by-compound search. This resulted in all species defined by formula I of claim 1 being searched and deemed free of the prior art. The subject matter of claims 1-13, 59 and 60 is therefore allowable (as would any method of use drawn to these compounds).

The search was, therefore, again expanded to include a single additional compound. This compound is defined when, in formula II of claim 14:

$R_1=R_2=R_4=R_5=R_6=R_7=H$; $R_8=OR$ where R is benzyl; $X=$ -lower alkyl O-; $Y=Z= -[C(R)_2]_n-$ where $R=H$ and $n=1$. A rejection follows.

Claim Rejections - 35 USC § 102, NEW

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 14-22, 46 and 47, in so far as they read on the species defined above, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by *Annals of Surgery* (1965), 162(4), p. 690-699, discussion p. 699-701 (CAPLUS abstract). The reference teaches applicant's compounds, for instance: RN=7298-53-5.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
